

Annex II to SII- Intertek Agreement

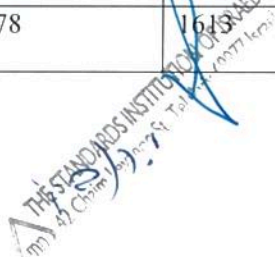

Product Categories and Standards for safety, their associated EMC and Energy Efficiency testing

1. The scope of Product Categories and Standards to be tested by Party A for its recognition by Party B are the following:
 - Audio/video equipment (TRON)
 - Office & Data equipment (OFF)
 - Medical equipment (MED)
 - Measurement equipment (MEAS)
 - Household and similar equipment (HOUS)
 - Portable tools (TOOL)
 - Electromagnetic Compatibility (EMC)
 - Luminaries (LITE)
 - Photovoltaic (PV)
 - Cables and Cords (CABL)
 - Capacitors as components (CAP)
 - Switches for appliances and automatic controls for electrical household appliances (CONT)
 - Energy Efficiency (E3)
 - Electrical Vehicle (ELVH)
 - Industrial Automation (INDA)
 - Installation accessories and connection devices (INST)
 - Information Technology Audio Video (ITAV)
 - Miscellaneous (MISC)
 - Low voltage, high power switching equipment (POW)
 - Installation protective equipment (PROT)
 - Safety transformers and similar equipment (SAFE)
 - Toys- see Annex 3

Party A is accepted in the IECEE-CB scheme for issuing CB Test Reports and Certificates. Test reports can either be issued under Party A IECEE recognition or standard(s) being within the scope of Party A accreditation by an accreditation body being a member of the International Laboratory Accreditation Cooperation (ILAC). If the IECEE recognition or accreditation criteria are not met, Party A shall contact Party B for guidance on acceptance or rejection.

2. In addition, the below products/standards can be tested by Party A for its recognition by Party B if testing was conducted under Part A scope of accreditation by an accreditation boy being a member of the International Laboratory Accreditation Cooperation (ILAC). If the accreditation criteria are not met or for a product/standard are not listed in 1&2, Party A shall contact Party B for guidance on acceptance or rejection.

Annex III to SII- Intertek Agreement

Testing of Toys

1. The relevant standards are European series of standards EN71 (Safety of Toys) as well as EN 62115:2005 for the electrical safety of toys.
2. The labs in ANNEX IV have a valid accreditation certificate that was issued by an accreditation body that is a member of the International Laboratory Accreditation Cooperation (hereinafter referred to as: "ILAC") in order to perform the Toys tests.
3. The test reports and relevant documents shall be submitted to SII by Israeli importers. (Submission by Intertek Lab is also permitted).
4. Intertek will appoint a professional representative for the toy field as a POC to provide data and technical answers if needed.
5. For toys a sample is needed unless otherwise agreed in advance.
6. This agreement is valid only for prototype testing of toys.
