We can shorten time to market by providing full technical support from early design stages
We organize professional training at the client's facility – international safety worldwide certification

All electrical and electronic products sold in markets around the world must demonstrate that they function according to existing electrical safety regulations and standards. These standards and regulations differ from country to country, with varying degrees of complexity.

One of the most difficult challenges for an exporter is to navigate through the regulatory forest, a time consuming venture at best.

Our laboratory specializes in safety certification testing to a large variety of safety standards, applying SII international agreements. With our assistance the certification process will become clear, smooth and fast for you.

Our testing facilities are well equipped to meet the requirements of all standards performed.

Our expert staff will accompany you at all stages of product approval displaying individual approach, personal attitude, flexibility and sensitivity to the client's marketing needs, high professionalism and reliability.

We do our best to help Israeli manufacturers step into foreign markets with as much ease as possible.

OUR SERVICES:

❖ **Safety Testing to European Directives (for CE marking):**

- Low Voltage Directive (LVD) 2006/95/EC (former 73/23/EEC)
- Machinery Safety Directive 98/37/EC

❖ **CB SCHEME International Certification**

❖ **NRTL Certification for US/CAN Market:**

UL Listing or Recognition Mark

cTUVus Mark

cETLus Mark

❖ **Additional Marks:**

GS Mark

GS Mark with UL
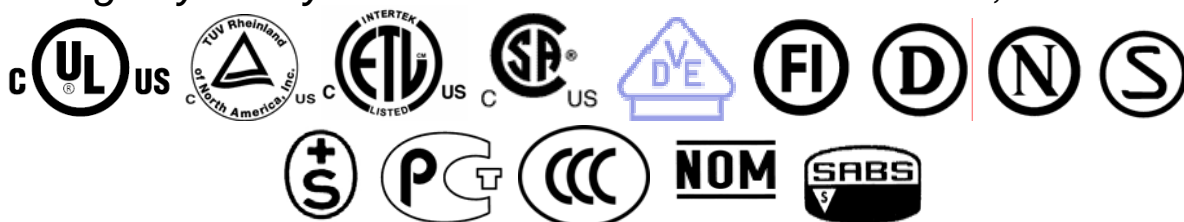

GS mark with TUV

GS mark with ETL Semko

Bauart Mark (TUV)

With our CB Scheme international agreement, we can help you with obtaining any safety certification mark all over the world, such as:

and many more…

We closely cooperate with:

Underwriters Laboratories
TUV Rheinland
Intertek Testing Services (ETL Semko)
British Standards Institute (BSI)
NEMKO
National Association of Testing Authorities of Australia (NATA)

OUR ACCREDITATIONS:

ACLASS / ANSI (American National Standards Institute)
IECEE CB Scheme (NCB and CBTL)

See the full list of SII international agreements on SII web site
